# NBM here to help and lead you to success

Building your portfolio is essential to modeling. Your portfolio is your resume to success to be the best is to look the best.

Expect to pay 300-500 for test pictures.

500-1000.00+ for portfolio

### Creating your portfolio:

The correct answer does tend to be somewhat market specific. In New York, 9x12 and 11x14 books are popular and often required. In Miami, snapshot sized "mini-books" are a popular trend. In most metropolitan markets, like Philadelphia, Baltimore, Chicago and San Diego, 8x10 and 8.5x11 books are the norm and more than adequate. I would recommend purchasing a book that holds 8.5x11 pages - after all - if you are hoping to do print work - your tearsheets are likely to be 8.5x11 - so you want them to fit in the book.

**Modeling is a lifestyle not just a look**
